About This Game

Retro Platformer Flare

JumpJet Rex features beautiful hand-drawn 16-bit graphics and classic chiptune music that transfers dino lovers back to the 2-D glory days of the early 90's.

Secrets and Collectibles

With dozens of items stashed across the Galaxy, and many secret areas to discover, JumpJet Rex offers plenty to do for the treasure hunters in the house!

Replayability

With a time challenge twist, players can replay every level multiple times to prove their platforming prowess. Download ghosts to race against the best players in the world, or compete directly with your friends to see who can post the best times!

Killer Old School Gameplay

Remember when platformers were so tough that people would hurt their hands playing, but feel amazing after getting past a level? Relive those moments with JumpJet Rex's strenuous platforming challenges and retro boss battles.

Co-op Mode

Saving all of dinokind from a giant asteroid barreling down on Earth is a pretty tall task for a T-Rex with tiny arms, so players can team up with a friend to take on challenges. Teammates must coordinate efforts in order to avoid mass obliteration.

Customization and Upgrades

No two T-Rex's are alike and fans will be able to customize their character and upgrade their appearance with the loot they collect on their travels.

Wait a second, this ain't Guitar Hero III

. I get about 40 FPS max on a good day, but average is about 35 FPS. I have a 6600K and an R9 380X. This game runs awful.. Is the game fun?

Sure.

Does it have replay value.

Not really.

Is it worth money.

No.

The game isnt bad but in this day and age you can find games like this for free all over the internet.

If you want to spend a few hours playing a simple game.

Go online and type free games.

You get the same level of asmsument.. If you like Breakout with RPG/Adventure-like twist to it, I would recommend it 100%. I got it during a sale.. Once again, OOTP is the best sports simulation available. No game even comes close to the level of depth, freedom & strategy that OOTP delivers year after year.

My wishlist for the next OOTP is the same is it was last year. Iu2019d love the ability to name a team captain, more emphasis on team chemistry, have promotional & giveaway nights, local & accurate food vendors, additional variables to increase attendance other than team performance (such as promotional nights, added parking, concerts/fireworks after the game, etc.) These are all minor things Iu2019d like added, overall my major complaint is the logic of trades are very hit or miss. The AI still doesnu2019t seem to grasp the mentality of adding to a contending team at the trade deadline or proper prospects for star swaps.

Sometimes the sims can get a tad ridiculous, like a reliever giving up 9 runs in an inning or insanely high scoring ball games. But hey, anything can happen in baseball. OOTP still consistently nails the statistical projections of players, and makes taking over any team from any league in the world rewarding. If you love baseball, like really love baseball, this is the franchise youu2019ve been dreaming of.. costs less than a pack of winnie blues and wont give you cancer either ay thats heaps good.. Game keeps crashing. Haven't managed to play it and would not recommend it.. Me ashoele crid wen it sawn this game it aslso cout canser. good gaem.

I loved this so much xD. new game from kingdoms rise dev, beware.. I was looking for a motorcycle Simulator, but this one was a big fail. let me explain.

1: Serious Motion Sickness, and I dont usually siffer this in other moving games.

2: Illogical controls. it requires you to tilt your head in an very unlogical way.

3: take time to figure you have to press your thumb to change gear.

To Imrpove, we need the following:

1: Better Guide or follow me style of tutorial

2: use the handle bars to balance like we do on a real motorcycle. You can use a Self righting or trailing wheels approach for beginners.

3: for motion sickness, you can imp[rove by the above control. and buy narrowing the field of view to simulate a helmet.. DLC is still not available in English...I understand there may be delays, however the DLC should not be sold until it is ready.. its generally good but i cant get past the mission with the dossier in hue city. it keeps crashing after the heli blows something up. also ascension wont work on zombies.. Yes! Yes! Yes!. The best part of this DLC is the "Ubisoft-like" trailer..... and mediocre content.

A lot of restriction on customisation (colour-lock). Pity shxtty.

The car models are okay, but hitboxes are like re-skinned Octane & Dominus. A bit lazy.

Mr11 looks hot from the sides.

New toppers are just okay.

. imagine this, with like a 10x bigger budget and more content, would be so ♥♥♥♥ing good

it's still fun, make more pls
