Did i do the right thing?. FIRST THING, CRASHED UPON INSTALLING. EVEN BEFORE INSTALLING MY ANTI-VIRUS SOFTWARE WENT NUTS.....HMMM (R2 red flags before i even reach the main menu) GOOD

\u2665\u2665\u2665\u2665ING CHRIST WHY WONT IT FULLSCREEN? SECONDLY, \u2665\u2665\u2665\u2665ING LOCK MOUSE CURSOR \u2665\u2665\u2665\u2665\u2665\u2665\u2665!!! jesus it literally takes 2 lines of code. FPS LIKE 1993 wtf seriously? and upon un-installing, i have 3 errors on my computer. all related to unreal \u2665\u2665\u2665\u2665ing with something its not supposed to. \u2665\u2665\u2665\u2665 RIGHT OFF i can see why its only 70 cents but godamn it. Firstly, one very important thing to consider here is that the game is "Early Access" and so not yet completed as determined by the developer(s), with that in mind some of the reviews complaining about it's lack of functionality or the state of it's current functionality can be disregarded as rubbish from illiterate gamers. Do not let these reviews sway your own opinion on the game as time goes on.

Onto the game itself, I have found it to be an interesting concept and I am open-minded for the future. I like the genre and style of the game, being different than big names like Civ or Total War with the apocalyptic and scavenging feel, while a nice similarity with different victories.

Not to mention it's very cheap currently, pick it up and try it!. It was okay, I just didn't like the look and some mechanics. But it's not a bad game, per se. At least not in my opinion. If you like 4x, I say give it a go at least.. What do you get when you mix the THPS soundtrack with Rocksmith? Awesomeness! And this DLC. Get it now!. A good game with a good plot, unfortunately, the stock graphics are a let down for me, 7/10

This is a very beautiful game and it looks like it's a labor of love. The visuals are EXTREMELY pretty! The sound track is some of the best tunes I've heard in a video game. The story can be a tear-jerker! The gameplay.... ehrrrrrrrrrr, trial and error. LOTS of trial and error. The stage design punishes you for not knowing the layout(mainly because spikes are a REALLY cheap difficulty tool), and you get some redundant abilities(you go from wall jump, to wall climbing). It has it's audience(masochists) and it's pretty decent. It's worth a play just to see how it plays. I just finished OatBF:DE as a different user on my computer, so a lot of hours didn't register. I practically 100% the game by getting all of the life and energy orbs and mastered the entire skill tree. Would I do it again? No. Would I try a demo of the sequel, probably.

God, I wish the rating system wasn't so binary.. One of the most interesting expansions.

New rules, changes to original game, deadly.

Very interesting new items that support the burn mechanism.

And the secret endings are fun.

I suggest to play it without other expansions although. Its too chaotic the burn mechanism.

And play it with friends!

. I can barely call this a game. Very little to do. Got lost in the dark very quickly. Is there supposed to be a flashlight because nothing worked for me.. It's a simple game that's all be reaction. You'll be surprise how fast time flies while playing this game..

This is what VR is about, experiences like this. Couldnt reccommend it enough even if it does last 5 minutes.. Too many hackers.

Region lock China.. One of the best Strategy games out there. It can be a bit pricey but it has sales a lot and that is when you strike.

Also Wood elves are cancer!
